

MAMMOTH MOUNTAIN BIKE PARK

ANSEL ADAMS WILDERNESS

BIKE PARK SHUTTLE PICK-UP THE VILLAGE AT MAMMOTH

Mammoth Mountain Bike Park: What's New for 2005!

Kamikaze Park
A place to have fun on your bike and test your skills. Located near the lower Panorama Station, the Kamikaze Park is for intermediate and advanced riders looking for a challenge. We'll have North Shore man-made features including dirt jumps, a log jam, teeter totter, features from the Unbound ski and snowboard Terrain Parks and larger features - look for the 90-foot Dragon and the Volcano!

4 new freeride trails are in the works!

DC-10 will be an expert trail for freeriding, located at the start of Brake Through.

Flow is located off Brake Through at the X-Zone freeride area. It's fast and flowing fun, and a good way to access Shotgun.

Pipeline is a wide dirt road featuring a high-speed jump area with large, challenging jumps. Starts off Flow and joins Uptown for an easy ride to the new Express Shuttle pick-up location at the Stump Alley Express parking lot area. This shuttle will take you back up to the Adventure Center.

Shock Treatment will be accessed halfway down Kamikaze. Advanced freeriders will find features similar to the ones on Flow.

These all-new trails are marked on the map by a red dashed line.

Lessons and Guided Rides
Beginner through expert lessons are available daily. Ask about Freeride and Women's weekend camps! Book through 800.MAMMOTH.

Operation

Park Pass required on all Mammoth Mountain Bike Trails.
The Bike Park is scheduled to operate late June - September 2005.

Bike Park	9am-6pm
Adventure Center	8am-6pm

Lower Panorama Gondola	9am-5pm
Upper Panorama Gondola	9am-4:30pm
Bike Park Shuttle	9:30am-5:30pm

Bike Trail Skill Level and Map Key

Easier ● More Difficult ■ Difficult ◆ Most Difficult ◆◆

- Bike Trails
Solid colored lines denote bike trails. Trails marked in green are moderate in difficulty while those in orange and red feature more challenging terrain.
- Proposed Bike Trail
- Hiking Trail (no bikes)
- Gondola & Shuttle Route
- Chair Lifts (reference only)

Ride With Care

Although Mammoth is working hard to provide you with the safest possible experience, there are natural and man-made obstacles and hazards that require you to be alert and vigilant. Using common sense and following the tips listed below will make your trip safer and more enjoyable:

1. Protect yourself against the elements. Helmets are required at all times for mountain biking; gloves and protective clothing are recommended. Temperatures can vary radically with altitude change. Use sunscreen to protect yourself from high altitude sun.
2. Start out easy. You will tire more quickly at Mammoth's high elevation.
3. Staying hydrated is key to your comfort and safety - drink plenty of fluids!
4. Be courteous to other riders. Pass only when it is safe.
5. Watch out for hikers and motor vehicles.
6. No pets allowed on bike trails. (Leashed pets allowed on gondola and hiking trails.)
7. Stay in control. Excess speed can be difficult to control even on our easiest trails.
8. Get acquainted with the trail map and ride on trails marked for your ability. To minimize erosion, please stay on designated trails and do not cut switchbacks. Park passes will be revoked for riding off the trail!
9. Seek shelter during thunderstorms. Stay off ridge tops, and away from the tallest trees, lift towers, power-line poles, signposts and large rock outcroppings.
10. We recommend you do not ride alone! First aid, mechanical assistance, and trail information is available at the Adventure Center or by dialing 3706 or 0 on any of our Emergency/Information phones marked on the trail map.
